MEET
SCOTT
+
KATIE

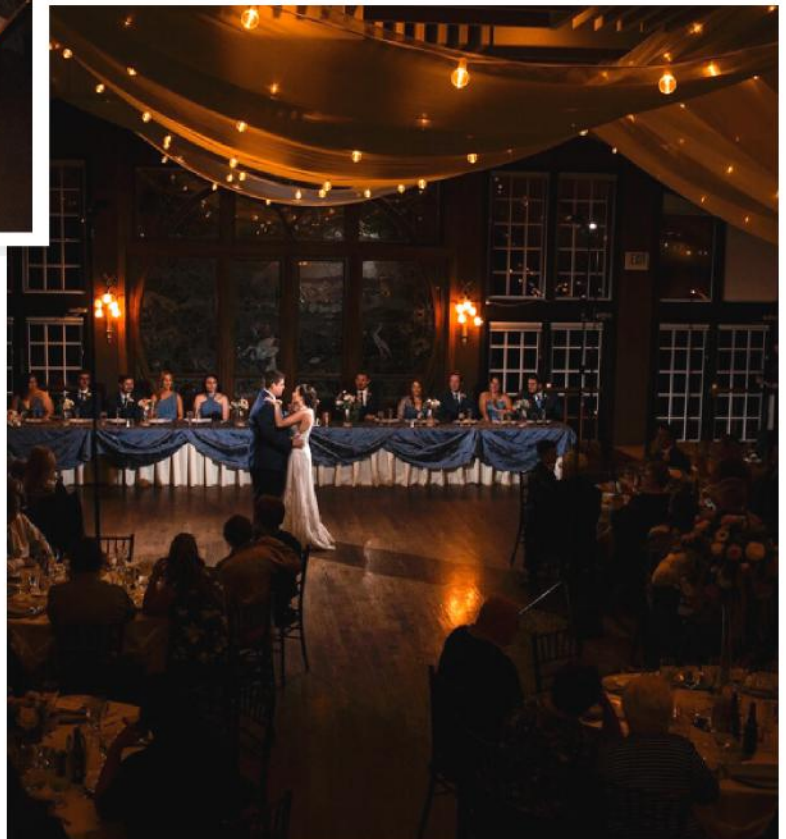

Owners of Event Design by Scott + Katie

Scott and Katie have been friends for years, both working in the wedding and event industry. Him, the owner of a lighting and decor business, her a planner working in catering, sales and venue management. They ran into each other numerous times at networking events and always kept in touch. Scott and Katie ran into each other again in 2017 and had a chance to catch up about the many recent life changes. Their love blossomed and they were married in September of 2019 blending both of their styles to create their own memorable event.

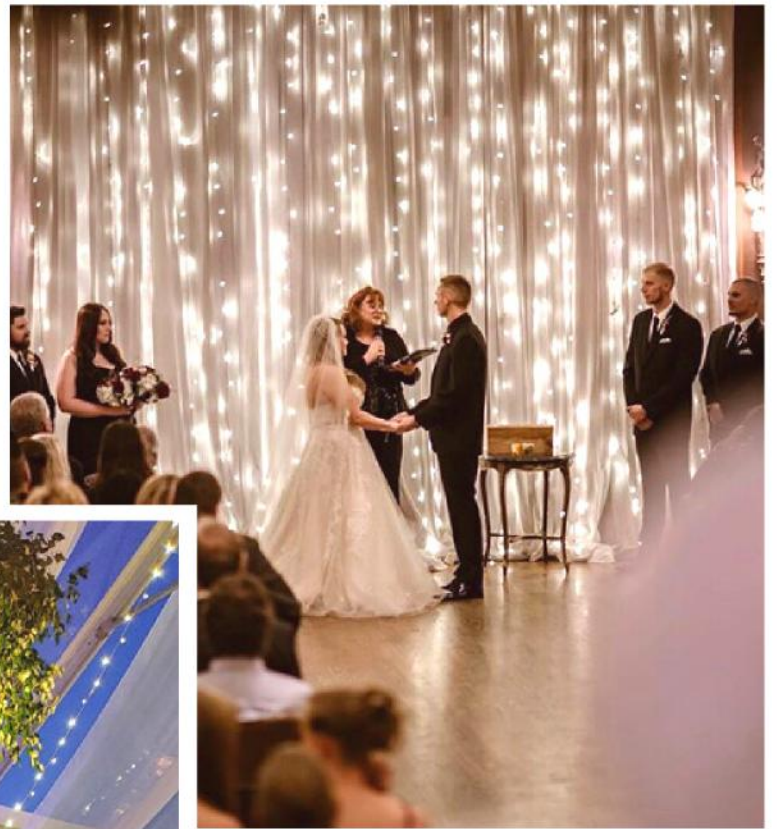

With their combined over 30 years of experience working on weddings and events, they learned that they can do even greater things together! They enjoyed working side by side through a tumultuous 2020 (AND grew their family adding baby Harper!) In 2021 they officially decided to combine Katie's organized personality to plan and her creative eye for floral design with Scott's passion for lighting and event production to launch Event Design by Scott + Katie. They are going to be as excited about your event as you are!
